What This Function Is For / 这个功能用来做什么

Short answer: use this when a parent asks GT to support school applications, including AEIS/S-AEIS and Singapore international school applications. This is a service agreement and finance billing workflow. It is not a lesson package workflow.

一句话：家长需要 GT 协助申请学校时使用，包括 AEIS/S-AEIS 和新加坡国际学校申请。这是服务协议 + 财务收款流程，不是课时包流程。

Screenshot note / 截图说明： screenshots were captured by Playwright with an authorized Admin account and a temporary training student. Temporary records were deleted after capture. Red boxes are generated from the live page element positions.

截图由 Playwright 使用授权 Admin 账号和临时培训学生截取；截图后临时记录已删除。红框来自真实页面元素位置。

Must-Know Rules / 先记住这些规则

1. **Use the separate service billing case.** The system creates or reuses **School Application Service**; do not use English/Math lesson packages.
必须使用独立服务收款 case。系统会创建或复用 **School Application Service**；不要使用英语/数学课包。
2. **No lesson hours are added or deducted.** This workflow only handles agreement, invoice, payment proof, receipt, and finance approval.
不会增加或扣减课时。本流程只处理协议、invoice、付款凭证、receipt 和财务审批。
3. **Parent info link comes before formal signing.** Use it when parent name/phone/email/address/ID needs confirmation.
正式签字前可先发家长资料链接，用于确认家长姓名、电话、邮箱、地址、证件号等。
4. **Signing must be handwritten.** Parent now sees the full agreement and must sign in the handwritten signature box.
签署必须手写。家长会看到完整协议，并必须在手写签名框签名。
5. **Void is not deletion.** Delete is only allowed for voided records with no invoice. Invoice-linked records stay for audit.
作废不等于删除。只有作废且无 invoice 的记录可删除；已关联 invoice 的记录必须保留审计。

Stop and ask Management if: the parent wants a special refund rule, the school list is unclear, fees do not match the agreement, or the wrong student was selected.

以下情况先停： 家长要求特殊退费规则、学校名单不清楚、费用和协议不一致、或选错学生。
