ENGLISH WORKFLOW · STEP 1 OF 5

Sign in and verify your finance identity.

核对财务工作账号 / Verify finance work account

Complete in this order

1. Use your own bound WeChat account and check the selected work account and role.

STOP: If the name, amount, permission, status, or button differs, do not continue or click again. Preserve the screen and contact the workflow owner.

Use only functions shown to your account.

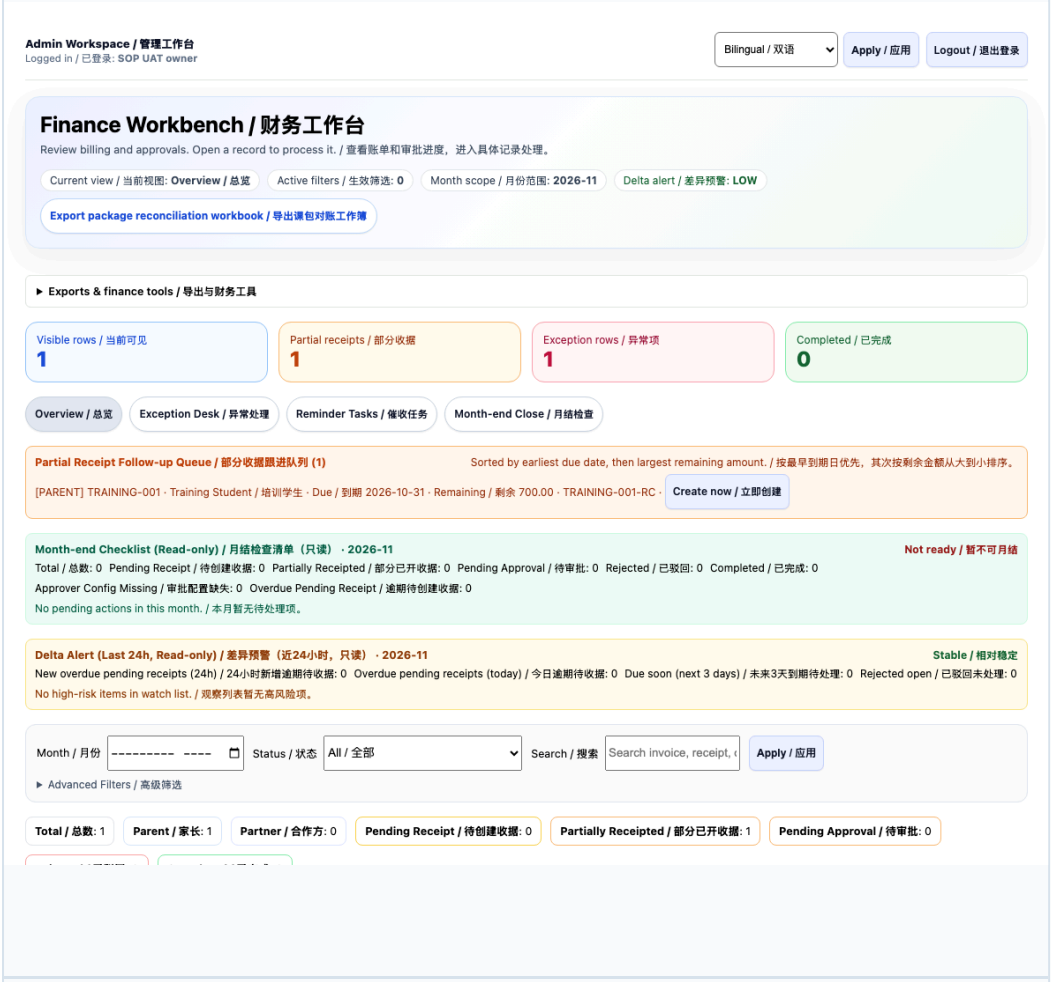

只处理实际显示的待办 / Use visible authorised items

Complete in this order

1. Capabilities depend on account and workspace; an ordinary finance account should not assume manager approval access.

STOP: If the name, amount, permission, status, or button differs, do not continue or click again. Preserve the screen and contact the workflow owner.

Use the web Finance workbench for finance operations.

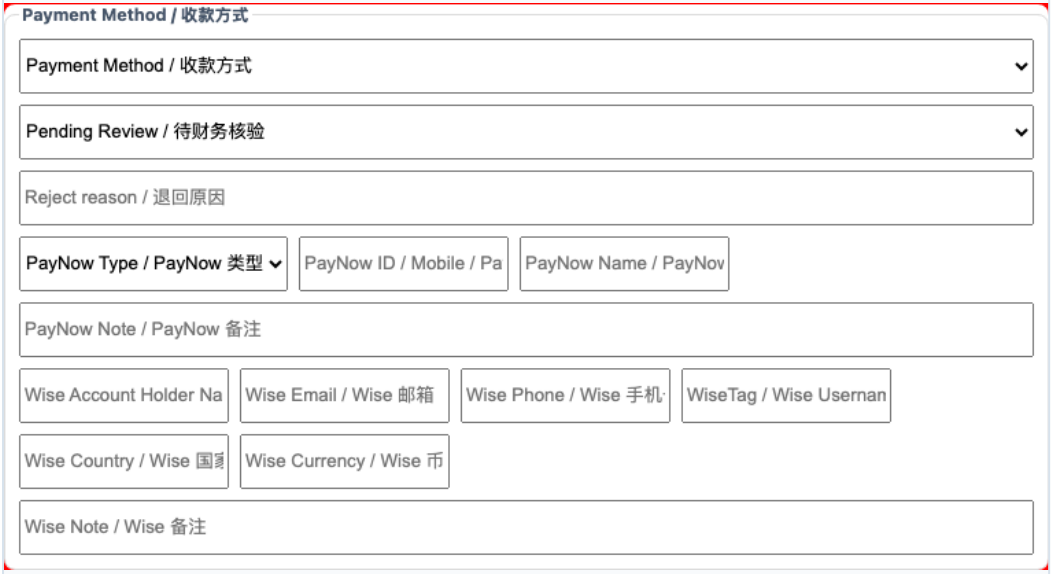

财务操作进入网页版财务工作台 / Web Finance workbench

Complete in this order

1. Handle invoices, receipts, partner settlement, finance payroll and expense approvals on the web within your permissions.

STOP: If the name, amount, permission, status, or button differs, do not continue or click again. Preserve the screen and contact the workflow owner.

Verify records before a web action.

在网页核对对象、金额与状态 / Verify web finance data

Complete in this order

1. Check the target, period, amount, evidence and previous status; resolve missing information first.

STOP: If the name, amount, permission, status, or button differs, do not continue or click again. Preserve the screen and contact the workflow owner.

Request mobile capabilities through management.

权限疑问先核对账号 / Check account when access differs

Complete in this order

1. If mobile approval is needed, submit a feature request and wait for release and training updates.

STOP: If the name, amount, permission, status, or button differs, do not continue or click again. Preserve the screen and contact the workflow owner.

Report completion only when every item is true

Employee self-check

- The account, platform, role, and target record are correct.
- Every step was completed in order.
- The expected final status remains after refresh.
- Non-sensitive evidence of the result was saved.
- You can explain who handles an exception.

Stop and escalate

- Required data or permission is missing.
- The page, button, or status differs from the guide.
- An unauthorised action would affect finance, contracts, packages, payroll, live sessions, or parent-visible content.
- The final state cannot be verified.
