Complete these four checks before clicking

Prepare

- Use your own account and role workspace.
- Use training data unless a manager authorises real data.
- Prepare the correct target, date, owner, and source records.
- Keep this PDF beside the system and complete one numbered step at a time.

Never

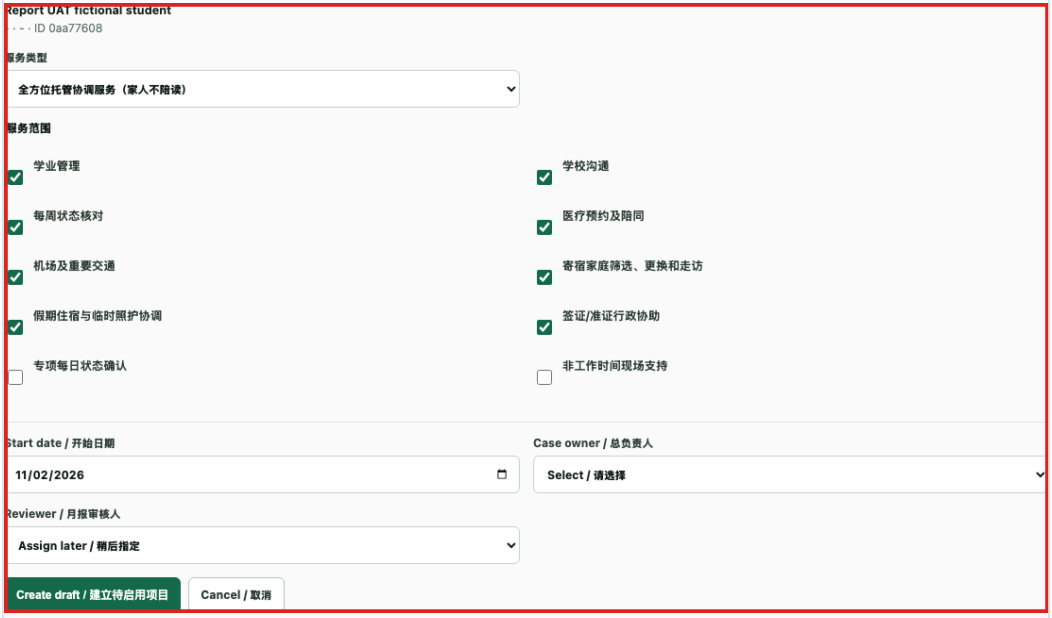

- Do not use another employee's account.
- Do not guess names, amounts, dates, statuses, or missing fields.
- Do not repeat Save, Apply, Approve, Publish, or Send when the result is unclear.
- Stop and ask the owner when the page differs.

ENGLISH SECTION · WORKFLOW OVERVIEW

Full Care — Complete Operations

1. Create the project and confirm student, service scope, owner, dates, and goals.
2. Break the plan into activities and tasks with owners, due dates, and evidence requirements.
3. Update actual status daily; when waiting externally, record party, reason, and next follow-up.
4. Escalate risks by severity and record mitigation, coverage, and management decisions.
5. Use system records as evidence; check the draft and sources, then follow the review process before publication.

Create the project and confirm student, service scope, owner, dates, and goals.

Report completion only when every item is true

Employee self-check

- The account, platform, role, and target record are correct.
- Every step was completed in order.
- The expected final status remains after refresh.
- Non-sensitive evidence of the result was saved.
- You can explain who handles an exception.

Stop and escalate

- Required data or permission is missing.
- The page, button, or status differs from the guide.
- An unauthorised action would affect finance, contracts, packages, payroll, live sessions, or parent-visible content.
- The final state cannot be verified.
